Mystery found out at last.

DR. STERRY'S HAIR REGENERATOR.—Dr. Sterry, after much attention to the important subject of preserving the hair, has after many experiments chemical and physical, been able to discover an article which is now offered with the greatest confidence for the toilette, as the best thing ever discovered, for its softening and penetrating quality, to produce a good head of hair—to prevent it from falling off when baldness is apprehended—to restore it when baldness has taken place, and to prevent it from turning gray. It is more nourishing than pomatum, antique oil, or Cologne water. It is a beautiful article for ladies' curls—it makes the hair soft and lively, and produces uncommon brilliancy. Thousandshave tested its superior virues and excellence, and in every instance it stands unrivalled. It is an infallible cure in all affections of the skin on the head—as dandriff, &c &c. Every family should be supplied with a bottle of this oil, that by its application to the head and hair of children, the beautiful and ornamental appendage of a fine head of hair, with which nature has supplied us, may be preserved.

Instances are constantly multiplying where this distressing complaint is completely relieved and cured, although of years standing by the use of Dr. Spohn's celebrated remedy. One decided preference is its pleasantness, having none of the nauseating effect of common drugs.

It is so perfectly satisfactory, that the proprietor has given directions for his agents to refund the price to any one who is not pleased with, and even cured by it.
